REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the record of prior art does not show a machine comprising:

- A field producing assembly having a portion producing a substantially radial field and a portion producing a substantially axial field, both portions producing a field above a leakage level as shown in claim 1.
- A first subset of C coils circularly disposed on one of two angularly disposed surfaces of said electrical assembly and a second subset of C coils cylindrically disposed on the other of said two surfaces, each coil in the first subset being axially aligned with a corresponding coil in the second subset as shown in claims 6 and 19.
- An N circumferentially spaced magnet subassemblies disposed on one side of said air gap, each magnet subassembly being generally L-shaped in a cross-section taken through said axis and being magnetically polarized opposite to a next adjacent magnet subassembly in a direction normal to the air gap as shown in claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
